

CLADDING

AUSTRALIAN HARDWOOD

AUGUST 2023

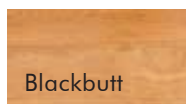

Hardwood timber cladding provides an envelope that protects a building. Hardwood timber cladding is an increasingly popular choice for finishing the outside of commercial and domestic buildings. It offers design freedom, ease of handling, a range of products and the natural beauty of Australian timber species.

Features

- Can be used in bush-fire prone areas up to BAL 29 (dependent on species natural fire resistance)
- Design flexibility for interior/exterior use
- Can be used on a wide variety of foundation conditions because of its flexibility
- A long-lasting and durable external surface
- Some hardwood cladding species, such as Blackbutt, are naturally termite resistant
- Offers diverse design scope for lightweight commercial and residential structures
- Building a sustainable future - Pentarch Forestry has full Chain of Custody certification which meets the Australian Forestry Standard (AFS) AS 4707-2006.
- Building codes, product installation guide and Australian standards should be adhered to when building with Pentarch Forestry Cladding.

Species

Blackbutt

Spotted Gum

Responsible Wood[®]
RW/1-31-217

PEFC[™]
PEFC/21-31-217

Sustainably Grown. Australian Made.

Applications

- Decorative Exterior Wall Lining
- Durable Exterior Surfaces
- Lightweight Building Structures
- Residential Buildings
- Commercial Buildings
- Industrial Buildings
- Outdoor Structures
- Outdoor Fences/Walls
